PERSONAL PROJECTS

Resume Builder with ReactJs (11/2022 - 02/2023)
- Resume Builder Online App is a web-based application that helps users create professional resumes quickly and easily. It provides a range of templates.

College Management using PHP (10/2021 - 01/2022)
- This Project includes process like Students Module, Teachers Module, Faculties Module, Subjects Module, Score Module where all the results of students are available, Article Posting Module and Location Module. We can easily identify the details of each and everything in this College Management System.

Hospital Management System using PHP and JavaScript (01/2021 - 06/2021)
- In this project our system helps to register with complete patient information. And it all captures and stores the medical history, treatment required, details of their previous visits, upcoming appointments if any, reports, insurance details and more.
